

TRYING TO GET BETTER CONTROL OF YOUR ASTHMA?

Find out if
the **TANGO study**
is right for you.

Find out more about a clinical trial of a study medication called CHF6001 – tanimilast for people who have asthma that is not well controlled.

You may be able to join the TANGO study if you:

- Are from 18 to 75 years old
- Have had asthma for at least 1 year
- Were diagnosed with asthma before age 50
- Have been using a combination treatment of an inhaled corticosteroid plus a long-acting beta-2 agonist for at least 3 months
- Have been hospitalised, sought medical care, or had an emergency room visit in the last year because of your asthma

Other requirements need to be met to join the TANGO study, which will last for 13 months and includes 7 study visits.

If you qualify, you may receive at no cost:

- Treatment with the study medication, CHF6001 – tanimilast
- Close medical care and follow-up throughout the study
